## FORESHADOWS NEW ENTERPRISE FOR THE MUNICIPALITY

Mayor May Suggests That the Proper Way to Avert a Coal Shortage is For City to Operate Its Own Mine

Alderman Calhoun—Why was the city power plant short of coal on Sunday evening?

Commissioner Hargreaves—The steamer broke down.

Alderman Calhoun—What did you pay for the coal.

Commissioner Hargreaves—Three dollars a ton.

Secretary Kinnaird—It will cost the city \$2.25 a ton, the contract price. The contractor will have to pay the difference.

The Mayor—While the contractor failed to supply coal, the city had to do something even if it cost \$20 a ton. The commissioners have written the contractor several times and have also ordered a supply from other parties in order to try to get a stock of coal in advance. I think the city is up against it and the sooner the city gets the rights whereby it can mine its own coal the better.

Calhoun—Can the city mine on the flat?

Mayor—We can if we purchase the rights. I think that at \$60,000 the rights would be worth considering.

Ald. Calhoun—If there had been a fire on Sunday night would the city have been liable?

Mayor—We kept a supply on hand which was reserved for an emergency of such a nature.

Alderman Calhoun—The contract should be made with responsible parties, who could furnish the coal.

Secretary Kinnaird—The trouble is that there is not any coal to be had in the summer because no one

is taking out coal.

Alderman Calhoun—That is not any excuse to the public.

Commissioner Hargreaves—I think that the city will not be short again.

Alderman Smith—I should think that the company would be liable for any expense in getting the coal.

Secretary Kinnaird—No question about it. I think that the contractor is trying his best to get the coal and keep the city supplied.

Alderman Calhoun—Well I will gamble that I can get coal, and not get stuck-up on it either.

The foregoing was a conversation which took place at the council board last night and indicates that the mayor at least is favorably disposed toward undertaking coal mining as a municipal enterprise. When the council adjourned others of the aldermen, especially Alderman Calhoun, spoke favorably of the proposition.

Mayor May pointed out that an 18 foot seam of coal had been proven by well borings to exist at a 300 foot depth right below the site of the power house, and as the city had an option on the agricultural exhibition grounds, an area of 41 acres in extent, on which the coal rights were included, the city was in a position to go into the business at any time.

Alderman Calhoun says there is no reason why the city should not mine its own coal from a shaft alongside the power house and be always sure of its supply.

## Grand Trunk Pacific Deal Closed

\*\*\*\*\*  
The largest and at the same time probably the most important transaction to the city was completed this morning, when the Grand Trunk Pacific Railway, accepting the options on quarter sections north of the city, these options having been secured by this firm some weeks ago. The value of this to the city can hardly be estimated, assuring it the yards and workshops of one of the largest transcontinental railroads on this continent.

## MONEY BY-LAWS APPROVED

Ratepayers Will be Asked to Vote  
\$11,500 for Hospital, \$45,000 for Parks and Other Sums For Other Purposes

At last night's meeting of the city council all the money bylaws were put through their preliminary stages and advanced to the place where they are ready for the ratepayers.

The date fixed, as heretofore announced, was August 15th and the place of voting the city hall.

The amount asked for the purchase of public parks is \$46,000, which it is intended shall be expended on two park sites, one the East End park of 100 acres, known as the Harkness place, on river lot 26, and a part of 24, and the other the Westmount park, purchased from Butcher Bros., an area of about 80 acres.

For the isolation hospital the citizens will be asked to vote \$11,500, of which \$8,500 will be added to the \$3,000 voted about a year ago and will constitute the sum necessary for the building, and the balance of \$3,000 will be used for furnishings and equipment. It is not expected that the full amount will be used at the present time, but the council is asking the ratepayers to vote a liberal sum on the understanding that should a more complete equipment be requisite of should any hasty extension be necessitated by an epidemic of any kind it will not be necessary to go through the formality of presenting another bylaw as there will be sufficient unsold debentures to meet the emergency.

The bylaw to improve the telephone plant, as stated last week, for \$65,000, and the bylaw for road making and ditching machinery is for \$12,000, making the total sum which the ratepayers will be asked to vote on the 15th of August, \$134,500.

WITHHOLD AMERICAN BEER  
London, June 28.—Mr. Buchanan, financial secretary to the war office, announced in the House of Commons yesterday that orders had been issued to withhold all issues to the army of American brands of preserved meat until Lieutenant-General Hobbs, the officer despatched to the United States to enquire into their character, has reported.

CLAIR WATTS, a well-known chauffeur in the city, has taken out a permit for an automobile repair shop, the erection of which was commenced yesterday on Third street north of the Hudson's Bay stores. The building will be frame, 35 x 90. It will have a capacity for 15 automobiles, and will be equipped with all the necessities for automobile repairing, cleaning, charging, and a general boarding-place for automobiles. A cigar floor will be installed, also a wash rack.

## CHARGES NOT JUSTIFIED

House of Commons Investigating Committee at Ottawa Brings in Its Report on Arctic Case

Ottawa, Ont., June 28.—Parliament today disposed of the Arctic enquiry. The discussion lasted from 11 a.m. yesterday morning until 2 this morning. All the members of the committee which investigated the matter, took part in the debate. MacLean, Lundberg, moved the adoption of the report that the charges were not justified and Dr. Stockton supported an amendment to the contrary. Brodeur replied for the cabinet and said that the cost of provisions for the Arctic per head was \$1.03, while the cost of the expedition when Foster was minister, in 1896, was \$1.30 per head. The charge was made that liquor was on board the Arctic, but there was also \$300 paid for liquor in Foster's time on cruises on the Atlantic coast. Borden closed the debate. Northrup's amendment was defeated, 38 voting for and 93 against.

Ottawa, June 28.—The Regina newspaper despatch of twenty-fifth inst., which says that the present census cut off all persons who have not been in the districts six months to an estimated number of one hundred and fifty thousand, is very misleading. The data selected for recording the population of the three provinces is 24th June and officers appointed for the work are requested to enumerate every person whose home or place of abode is in any sub-district of the provinces and alive at midnight of that day. There is no rule fixing a qualifying period of residence. Any person recently arrived whose home has been elsewhere, but who does not intend to return to it, is to be counted, whether the time of his residence in the locality be long or short. The present is a de jure census like all previous censuses in Canada, and no departure has been made in the rules for taking it, consequently the provinces will not lose in population representation by the census for any cause stated in the Regina despatch.

## ESTIMATES ON PAVING

Engineer Submits Figures to City Council on Cost of Blocking or Asphaltizing Jasper and First

According to the figures put in to the city council last night by the city engineer, the property holders of Jasper avenue and First street can get asphalt pavement at a cost to themselves of less than \$3.50 a front foot.

As paving comes under the head of local improvements, and as action to secure a pavement by petition is properly in order, it will not be at all surprising to see a unanimously signed petition placed before the council at once and the aldermen besieged by ratepayers to get the work started immediately, if not sooner.

The figures placed before the council by the engineer show that the total cost of laying an asphalt pavement on Jasper avenue or First street would be \$3.10.

Figuring on this basis and deducting the sidewalk area from the street area, the pavement would cost \$20 a running foot.

According to the conditions of the local improvement bylaw, one-half of this \$20 would be chargeable to the city and the other half to the property. At this rate there would be \$5 chargeable against every running foot on each side of the street.

From this \$5 a foot, however, there would have to be a deduction which the engineer in his estimate last night did not figure on, and which apparently the council has not yet taken into consideration, but which, nevertheless, the property holders would be perfectly entitled to, namely an allowance for paving the street car track.

Taking it for granted that no council would be so short-sighted as to pave Jasper avenue without putting down a car line, and presuming that they would be far-seeing enough to make it a double track line, there would then be a strip in the middle of the street occupied by the street railway which would naturally be chargeable against the street railway.

Presuming that the city would follow the usual rule of all well governed cities and charge up the track area, including one foot on each side of the rails and the devil-strip between the tracks, against the street railway, this would make a strip down the middle of the street 18 feet wide which the street railway should naturally be encumbered with. The fact that the franchise in Edmonton belongs to the city and that the cars will be operated by the city, should not make any difference.

On this hypothesis the 18 foot strip should mean a deduction of two yards per running foot, or one yard for each side of the middle of the street. As half of this deduction would be enjoyed by the city and half by the ratepayers, it

## ITALIAN LABORERS FIGHT IN KINGSTON RAILWAY YARDS

Striking Trackmen Take Possession of Company's Property and Give Police and Militia a Lively Time

Kingston, Ont., June 28.—(Special to the Bulletin)—The outer station of the Grand Trunk railway was the scene of a lively battle here today between two hundred Italian track workers and the local police, railway detectives and the Canadian Horse Artillery.

The Italians were working for the maintenance of way department of the G. T. P. for \$1.50 a day. Yesterday they made a demand for \$2 a day, which was refused and this morning the Italians gathered around the yard but refused to go to work. The foreman of the grading gang was ordered to proceed to make up his train and pull out for Collins' Bay. When he attempted to do so bedlam broke loose and there was the liveliest time about the yards Kingston has seen for many a day. With rocks, clubs, guns and knives they cleared the yard and took possession, holding up traffic and bringing everything to a standstill. Early in the afternoon three company detectives arrived from Montreal and together with three Kingston policemen went down to the yards and ordered the Italians off the premises. They refused to leave and when the detectives tried to enforce their orders, a hand-to-hand fight followed, the

"daggers" using knives and revolvers. When Sergeant Nesbitt made a rush to arrest the ring leader the latter drew his gun and began firing. Nesbitt grasped his man, but was immediately surrounded and when he emerged his left arm was useless, having been ripped from the shoulder to the wrist. He was also stabbed in the breast and leg. Detective McRae was also grasped in the melee and a knife run into his abdomen. The strikers then rushed police and detectives and they had to make their escape in disorder. Mayor Mowatt called out the Canadian Horse Artillery and the soldiers, mounted and armed, soon cowed the Italians. Ten of the rioters were secured at the station and nine at Cataract. This contingent was brought in in the hope of identifying some of the assailants. Nesbitt's wounds are serious. The "daggers" did not escape unhurt. All is quiet at the yards today.

## STRATHCONA

### NEWS ITEMS

The Bulletin's Daily Budget From the Sister Town

Strathcona, June 27. — Hon. A. G. Rutherford is expected to return to town on his eastern tour this week. The Edmonton Presbyterian church has a special service at 8 p.m. on Sunday, June 29, at 8 p.m. The Rev. Dr. Macdonald, pastor of the church, will be the guest of Rev. Dr. Macdonald, pastor of the church.

P. G. Archibald of Halifax county, N. S. is in town on Tuesday evening on the 1 p.m. south bound train. Mr. Archibald, who is a relative of Dr. S. Archibald, was a guest of the doctor while in town. He is a merchant, farmer and lumberer of Nova Scotia, and came west to see his father, Mr. Archibald, who is now in the hospital in the city.

Wm. Macdonald, of Toronto, late organizer of the Royal Canadian Mounted Police, in company with Mr. Williams of Meaford, Ont., have formed a partnership and will conduct a real estate business here in the old Plainfield office, Whistler avenue.

The new Gallian hospital at Vegreville, Alta., of which Dr. Blumberg is medical superintendent, will be maintained by the Women's Home Missionary Society of the Presbyterian church in Canada. This is a much needed institution in the West and it is to be hoped that much good may be accomplished by the managing committee.

At the Presbytery meeting here this week a hearty call was extended to the Rev. W. D. McPhail, of Edmonton, from the Sturgeon congregation. No definite action has yet been taken in the matter.

The Presbyterian congregation of Red Deer have decided to extend a call to the Rev. S. D. Nixon of Ayr, Ont., who has lately been preaching in Edmonton and is no stranger in Alberta. The Presbyterian congregation of Strathcona will, after July 15th, for a time, meet for worship in Walters hall over Douglas Bros. store.

Mr. J. Gritter, who came up here lately from Washington, U. S., has undergone a successful operation at the General Hospital here. Mr. Gritter purposes to become a settler in the Pembina region.

Mr. A. C. Scott is in town from Vancouver, B. C., where his home is. He is again to secure another engagement of live stock for the western market. He reports an increasing demand for Alberta products.

Mr. Swinton, late of British Columbia, is now with Mr. Monteth in the real estate business during the absence of Magistrate Connolly from town.

## ESTIMATES ON PAVING

(Continued from Page One)

would mean to the property owner that the amount for which his property was bonded under the local improvement ordinance would be lessened by the cost of half a yard of paving, i.e., \$1.55; so that the rate chargeable against the property owners on Jasper for an asphalt pavement would be \$3.45 per front foot.

The city's expense would be \$3.45 per running foot, plus the cost of the street car track.

From Kinsinto to Fourth street is 4,000 feet, requiring \$13,600 of debentures solely chargeable to the city at \$3.45 per lineal foot.

The cost of a double-track, girder rail car line laid on a concrete base, with tamarack ties, is variously estimated in engineering handbooks at from \$30,000 to \$40,000 a mile, including the cost of asphalt.

The engineer's estimate of the cost of asphaltizing first street is \$18.60 per running foot, the difference of course being principally due to the depth of the street.

On the same basis of figuring as on Jasper, first street property would be saddled with local improvement bonds to the expense of \$3.10 per front foot.

In all cases of course the First and Jasper property would have to pay its share under the general assessment of the half cost chargeable to the consolidated debenture debt of the city, but no such consideration is likely to stop the First street people, who were lately so willing to pay the entire expense of widening their street, from demanding a pavement at the earliest possible day.

## C. M. R. DIVINE SERVICE.

Edmonton Bunc's Corralled, Roped,  
 Thrown and Branded in Ball  
 Game in Calgary Yes-  
 terday

Calgary, June 28.—Calgary made it  
 three straight by defeating Edmon-  
 ton in both games today in the east-  
 ern. This afternoon was a fam-  
 ous exhibition, Calgary winning  
 by fifteen to nothing. Edmonton made  
 thirteen errors. Mutt, the new pitch-  
 er, did not do very well. He has the  
 shoots and the speed, but kept them  
 right over the centre of the plate and  
 seemed nervous. Calgary got three  
 runs in the first innings on one hit  
 and four errors. In the second in-  
 nings Calgary got six runs on four  
 hits and four errors. In the third  
 there were two runs and two errors.  
 After the second innings Edmonton  
 played without any heart. Every man  
 on the team had errors but Deaton,  
 Till and Cronin; Cronin had no chance.  
 Brennan showed up but on account of  
 a very bad hand was in no condition  
 to play. He tried first base for a few  
 innings and then retired. McCartney  
 allowed only four hits. He was fairly  
 well supported. Edmonton lost the  
 second game by nine to one. Edmon-  
 ton started the game without expecta-  
 tion of winning, and without much  
 heat. Their only run was made in  
 the first innings on Deaton's gift and  
 Symonds' double. Calgary had little  
 trouble with Vining and Edmonton  
 could do nothing with Crist. Games  
 had to be called after the first of  
 the fifth innings on account of rain, but  
 was resumed in about ten minutes. Ed-  
 monton will probably return to Cal-  
 gary to play here on July 18, when  
 they promise to come with a much  
 better team. They are in communica-  
 tion with two Washington players.  
 Brennan may not go north with the  
 team. Except for the disastrous  
 showing of Edmonton the visit has  
 been a very pleasant one on both  
 sides.

**FANS PREPARING.**

The managers of the baseball team  
 are preparing for the great tourna-  
 ment and baseball festival next week.  
 The games are to be played on the  
 Second street grounds. The grounds  
 will be in excellent condition and ev-  
 erything possible will be done for the  
 accommodation of the public. Arrange-  
 ments are being made with the Mc-  
 Phie Co., who arrive here on Monday,  
 for several tiers of their amphitheatre  
 seats, which will be used as bleachers  
 at the grounds, thus providing  
 seating accommodation for three or  
 four hundred people. All visiting  
 teams are to receive a percentage of  
 the gate receipts. The series will op-  
 en with a game on Monday at 7 p.m.  
 between Strathcona and Edmonton. On  
 Tuesday at 10 a.m. Wetsakwin and  
 Calgary will take possession of the  
 field. Calgary and Edmonton playing  
 at 7 in the evening. Wednesday an-  
 other double-header, Strathcona vs. Red  
 Deer, 10 a.m. Wetsakwin vs. Edmon-  
 ton 7 p.m. Thursday evening the win-  
 ners will play off.

**SYSONBY'S WINNINGS**

James H. Sysonby, owner of the de-  
 ceased racer, Sysonby, has expressed  
 his intention to build a monument to  
 the great racer at Castleton stud.  
 Kentucky, where the horse is buried.  
 The Conny Island Jockey Club offered  
 to have the racer buried at Shep-  
 head Bay, but the offer was refused.  
 The horse was insured for \$100,000.  
 Following is an exact history of  
 the great racer's winnings.

At two years old—Maiden race,  
 Brighton, \$840; Brighton Junior \$11-  
 750; Fijah, Saratoga, \$4875; Saratoga  
 Special (including gold plate of \$2500),  
 \$13,000; third in Futurity, \$3490; Jun-  
 ior Champion, Brooklyn, \$6010; total  
 at two years old, \$19,965.  
 At three years old—Metropolitan  
 handicap, \$2230; Tidal, \$14550; Com-  
 monwealth handicap, \$12,225; Raza-  
 tion (including \$1000 to nominator and  
 trainer of winner), \$17,500; Ironquela,  
 stake, \$5500; Brighton Derby, \$11,750;  
 Great Republic (including \$2,000 to  
 nominator), \$41,465; Century (includ-  
 ing \$500 to owner of winner at time of  
 entry), \$15,150; Annual Champion (in-  
 cluding \$1000 to owner of winner at  
 time of entry), \$20,550. Total at three  
 years old \$148,730. Total two years,  
 \$188,695.

The full value of the Metropolitan is  
 accredited to Sysonby in accordance  
 with rule 125, which says that a dead  
 heater must carry penalty for the full  
 amount he would have received if he  
 had won outright.

**RAKE-OFF IN TORONTO.**

Toronto, June 28.—At the civic in-  
 vestigation this morning Contractor  
 Douglas gave evidence which went  
 to show that contractors made pay-  
 ments amounting to about \$200 each  
 to Architects Jarvis and Siddall,  
 who had St. Lawrence market work.

**Toronto Sports Easy****For Handbook Men**

All Sorts and Conditions Discovered  
 in Pool Room Raid. Many High  
 Sounding Names on Police  
 Blotter.

Ontario, June 28.—Among 150 persons  
 subpoenaed to appear in police court  
 in connection with hand book raids are  
 many who stand in social and busi-  
 ness life. One is the son of an Ontario  
 minister, another is a well known  
 lawyer, and a third is a prominent  
 physician.

Ontario has gone so daffy on the horse  
 racing game lately that even the pa-  
 pers are commencing to sit up and take  
 notice of it. The police have raided the  
 pool rooms and the preachers are all  
 talking about it. The sporting man on  
 the Telegram also has a word or two  
 to say:

"The Macedonian cry has oftentimes  
 been raised that Ontario as a sport-  
 ing proposition, as a wide-open  
 town, is not in the same class as Buf-  
 falo, Detroit, or other American busi-  
 ness centres; that the morality de-  
 partment is altogether on strict and  
 that the talent, to wit, the wis-  
 dom gentlemen who follow the  
 bang-tail, cannot with any degree of  
 comfort lay down a bet without fear  
 of a short sojourn with the presid-  
 ing magistrate, or as one man re-  
 marked last evening, while endeavor-  
 ing to get through the froth to the  
 business end of a glass of lager beer,  
 'You can't do nawthin' in this town.  
 Ain't it the awful?'"

**TORONTO IS EASY**

"This may be very well, but the  
 form chart shows a very different state  
 of affairs. For Toronto, in place of  
 being an anti-gambling town, is really  
 a rendezvous for more betting and  
 handbooking than any city of its size  
 on this continent. Brooklyn, N. Y.,  
 is called the city of churches, while  
 Toronto might well be dubbed the  
 city of handbooks. They're as thick  
 as peas in a pod, or blanks in a  
 French-Canadian lottery. This town  
 is race-horse crazy. Most people  
 know what a hand-book means, but  
 for the benefit of the uninitiated few  
 we will explain in a few words. A  
 handbook in a hole in the wall, or  
 desk room in a cigar store, where a  
 'swell dresser' burns up the noon-  
 day sun taking bets from a crowd of  
 wage earners who sweat and toil for  
 over their money in order that the  
 bookmaker may not be denied his an-  
 nual Christmas treat.

**HANDBOOK GREAT GRAFT**

"The handbook is the original gat-  
 rich-quick system and has a graft  
 that, as a soft money getter, will  
 compare favorably with the porcen-  
 tages wheel and other pastimes.  
 "And though the handbook thrives  
 in other towns Ontario has the dis-  
 tinction of having more of these pri-  
 vate banks, as it were, per population  
 than any other city on earth. It's  
 the candy game that gets the money.

**WIDE OPEN CITY**

"And still the cry goes up for a wide  
 open town. What does the Tender-  
 loin want—to go on the street with  
 a billy and take it away from a man?  
 Yes, that's probably the graft for which  
 they are looking. A wide open town,  
 eh, where will you find a better one?  
 For years poker games, with a rake-  
 off that would break the Bank of Eng-  
 land, have thrived and grown to man-  
 hood, while you couldn't fall into a  
 doorway on any downtown street, or  
 go past the 'look-out' in the cool of  
 a winter evening without disturbing a  
 select gathering of business friends  
 who were rolling the bones.

**HANDBOOK PAYS RENT**

"But the handbook is the literature  
 that pays the rent. It's the game  
 that gets the play. And it isn't con-  
 fined to men of mature years who  
 (ought to know better. The hand-  
 book claims as its clients men of high  
 degree down to the bell-hopper in  
 the hotel, or the slavey who draws  
 her nine dollars per month in the do-  
 mestic side of life. They all hate to  
 let the horses go to the post without  
 having a small bet down on them.

**CRAZE BITES EVERYBODY.**

"Hello, is the sporting editor in?"  
 It was a female voice who asked the  
 question. "Oh, is that you, well, of  
 course you don't know who I am, but  
 would you mind telling me if 'Go-  
 Between' was in the money today.  
 You know I have a husband who  
 doesn't take any interest in the ponies  
 at all and he won't tell me anything.  
 Ain't he the mean thing? I think  
 it's perfectly rotten. What's that  
 you say, Go-Between won, oh, thanks  
 so much. Say, you're all right, good-  
 day." That's the handbook lady, and  
 she's a bird. Has more nerve than  
 an insurance actuary, and when she's  
 at the other end of the wire you  
 might just as well close up shop or  
 hand her the desired 'info.' They  
 imagine you're on earth for their  
 special benefit, and don't see why you  
 won't stand at the phone all after-  
 noon and give them the winners, as  
 they come in. That's what the hand-  
 book has done for your lady friends.  
 made real gamblers of 'em."

## ANOTHER VIEW

The Conservative press keeps up a fireless complaint that the Liberal party is growing weaker, is losing its great men, in the hope of convincing the public that those who now occupy the treasury benches do not measure up to the standard of the cabinet of 1896.

It might be worth while to call the attention of this party to the fact that it is not necessary for them to go so far afield to find a party that has lost most of its prominent figures since 1896.

First comes Sir Charles Tupper, who was retired, not by his party, but at the hands of the electorate. The wave that took Sir Charles off his political feet also swept Hugh John Macdonald, the hope of his party, out of politics, and also relegated Foster to political oblivion during the life of two parliaments. This same election retired Hon. W. H. Montague.

These are only a few of the leaders. The hand of death removed Hon. N. Clarke Wallace, Nicholas Flood Davin, D'Alton McCarthy, Hon. Peter White, E. F. Clarke and later Sir Hector Langevin. Among others who have retired or been retired are Sir Hibbert Tupper, Sir Adolphe Caron, Hon. W. B. Ives, Hon. J. F. Wood, Hon. E. G. Prior, Hon. A. R. Dickie, Hon. A. R. Angers, Sir Frank Smith and Hon. T. Mayne Daly, then the Hon. John Costigan has left the party from choice.

This makes a list long enough for the Tory press to contemplate for a while. A glance at those who replace them is sufficient cause for alarm within the party. Mr. Borden, who lost his seat and his province, W. F. McLean with his knife, W. R. Bennett with his gutter-snipe politics, Dr. Sproule with a new organization to feed on religious prejudice, E. M. Bristol in a woeful attempt to fill the late E. F. Clark's shoes, E. B. Osler who replied to "one" budget speech, A. E. Ames famous for what he doesn't know about the West. These are the things the Conservative party needs to worry most about.

## PROMOTE GOOD CITIZENSHIP

A case in the Police Court yesterday made it very apparent that an Industrial School is one of the necessities of this province. Just how to deal with the boy in a case of petty theft is a problem. Magistrate Wade disposed of the case yesterday in a commendable manner. To let the boy off completely is no lesson to him and it is to be hoped that his father gave him the prescribed whipping.

Boys inclined to petty depredations should be given every chance. First offences should be lightly dealt with, a warning and thorough scolding with a warning to the lad's parents of their responsibility in the case. The great problem, however, is the boy who appears to be criminally inclined in spite of ordinary restraint. To send him to the common jail means in a good many cases, to make him a common criminal. It will pay the country to take charge of such boys and endeavor to turn their abilities into channels that will give them a chance to become useful citizens. A properly conducted Industrial School can effect good results in this direction. Boys of this class kept in proper restraint without the confinement of prison bars, and put to work at a trade, with their liberty depending to some extent upon their good conduct, will in many cases turn out good citizens, and if only one per cent. were reformed the result is worth the effort. Give the boys a chance. If a lad's environment has warped his moral character, or if his natural tendency is to crime, the country should take up his case and make a man of him if possible. Good citizens are our greatest assets and no effort should be spared to make good men of our boys.

## BRAKEMAN KILLED.

Sherbrooke, Que., June 28.—One man was killed and four Montreal men seriously injured in a collision between a ballast train and a hand car at McLeod's Crossing yesterday. The men on the hand car escaped unhurt, but Hugh MacLean, brakeman on the ballast train, was dead when taken out of the wreck-age.

## YALE CREW WINS INTERCOLLEGE RACE.

New London, June 28.—The weather and water conditions were perfect for the Yale-Harvard races to-day. There were 30,000 visitors. Yale won the freshman eight after a hard tussle by a boat's length. Time 107 minutes, 40 seconds. The Varsity four was rowed for Yale, who won by eight lengths. Harvard got away first and took a boat length's lead by hitting for the first half mile, when Yale, a killing pace, which told on the crew maintaining a steady swing, took the lead from there on and drew away. Yale never varied, while Harvard was obliged to let down after the first half mile. From there on they splashed like amateurs. After the first half mile there was no semblance of a race.

## Finds Fault With

## City Councils Policy

A. Crystal says Aldermen Blundered when They Required all Cash for Lots Offered for Sale

Edmonton, Alta., June 27.

Editor Bulletin:

I would like to call the attention of ratepayers to what I consider unfair and a deep injustice to a certain portion of the community, and it is that classes that are the least able to be placed at such a disadvantage which, of course favors the rich, and they, in my estimation not the only ones that should receive due consideration. The welfare and future of this country depends on the working class and the producers and it is their welfare that should receive first consideration from our civic fathers who are at the helm of our civic affairs. I notice the city council have decided after due consideration to sell certain pieces of city property which are not any longer required by them, and that the terms are spot cash. This is an unheard of arrangement as to terms, as it does not give a poor man any opportunity to buy his home, but it favors the man in good circumstances and gives him the chance to buy, build and then to charge exorbitant rentals for residential property which is now unreasonably high. I say it is unreasonable and should not be tolerated by the ratepayers, to whom the city fathers are directly responsible. Now, from a business standpoint, if this property was sold on terms with a substantial payment down, it would fetch a much better price, enable a poor man to buy as well as a rich man, and create a much better competition. There is no excuse for selling city property for cash. The financial standing of the city is good and they can easily get all the money they require on debentures at 4 per cent. where they would be getting 6 or 7 per cent. on their land sales; not only that, but the prices received on terms would certainly be considerably higher. I say, fair play to all without any partiality, and the city's interest and welfare should be protected to the utmost. I offer: sell property myself, having dealt some in real estate, and I know for a positive fact that I can get better prices when I sell on time and it is not policy to sell for cash unless the money is required and cannot be got elsewhere. In conclusion I may say that the opportunities that present themselves from the sale of city property which is owned at present by the city ratepayers should be sold with equal rights to all. Thanking you for the liberty of the space in your valuable columns,

A. CRISTALL.

## RICHEST BRITISH WOMAN MARRIED.

London, June 26.—Lady Mary Hamilton, only daughter of the late Twelfth Duke of Hamilton, and Brandon, and the richest woman in Great Britain, was married to-day at St. George's church, Hanover square, to the Marquis of Graham, eldest son of the Duke of Montrose. King Edward was among those present at the ceremony. The church was filled with members of the peerage.

The scene outside the church was quite exciting, the enormous crowd desiring a close inspection of the bride, broke through the police cordon and swelled around her carriage when it arrived in front of the church portico, almost completely blocking its passage. Heavy reinforcements of police were necessary to clear the way for the King's carriage, and to open a passage for the bride to enter the church.

## FAMOUS ORGANIST WILL ENTER-TAIN

Dr. Torrington, Toronto's leading organist, and founder of Toronto College of Music, gives his recital in McDougall Methodist church this evening under the auspices of the Epworth League. He has been presiding over the examinations of the pupils of Alberta College, and also examined the pupils of Vernon Harford. This evening he will play upon the pipe organ of McDougall church, and it will be a treat to hear him.

Dr. Torrington has been thirty-three years organist of the Metropolitan Methodist church in Toronto. His organ there is considered to be one of the finest, if not the finest, on the American continent. Lemaire, the celebrated organist who assisted at the opening of the instrument, stated without reserve that it was one of the best, if not the best, on America. The quality of tone is perfect. Visitors from India, Japan, Australia, and Germany have examined it, and all are unanimous in their praise. The total cost of the organ is in the neighborhood of \$40,000. It was built by Mr. Warren, who built the organ in the Central Methodist church, Calgary.

Prof. Torrington has in his choir 94 voices, and among them some famous soloists. Miss Millet, who has been under his tuition since she was 13 years of age, has recently been appointed to the First Baptist church at Franklin, Pa., at a salary of \$1,700 a year.

The doctor was connected nearly forty years ago with King's chapel, Boston. For some time he played there on the organ presented by King George to the chapel and selected by the great artist, Handel.

## CRICKET IN STRATHCONA

A cup match will be played on Strathcona grounds on Saturday afternoon between the Edmonton and Strathcona cricket teams. The cup to be played for is one presented by citizens of Red Deer. The winners of the match will play in Red Deer next week. The Edmonton team for the match tomorrow will be picked from the following players: O. L. Boyce, captain; Capt. Worsley, E. F. Slocock, E. Slocock, G. T. Boyd, A. H. Jones, C. A. Wilson, Rev. H. H. Wilkinson, F. D. Pass, W. Richardson, G. H. Adams, Whittier. The umpire, Rev. C. H. Beck, scorer, J. R. Hartley. The bus will leave Windsor Hotel for Strathcona at 2 o'clock sharp.

## THE CZAR SELLS FOREST LAND.

Alone among the rulers of first-class powers, the Czar of Russia derives his income from crown lands. In his case these are veritable domains, consisting of more than a

million of square miles of cultivated lands and forests, besides gold and other mines in Siberia, and producing a vast revenue, the actual amount of which is never known, as no reference is ever made to it in the budgets or finance accounts of the empire. When it became evident that the representatives of peasants in the Duma demanded free lands for their constituents, a panic arose among the small land owners, who endeavored to sell their estates at all costs; but the Agrarian State Bank, at a nod from the Government, refused to advance money for the purchase. Expropriation was then agitated at the clubs of the peasant members. It is now deemed very significant that Nicholas II. himself is preparing to dispose of large tracts of forest lands; in fact, his agent in Berlin has already completed negotiations with a German syndicate for the sale of the forests under Imperial jurisdiction for \$250,000,000. The Imperial appanages consist of estates set aside by the Emperor Paul I. the revenues from which are drawn by more than forty members of the Imperial family not in the direct line of succession. These estates cover 33,000 square miles, being 2,000,000 acres larger than Scotland, and the total revenue derived from them was recently estimated at \$10,000,000 yearly.

## THE SHEPHERD.

To rise with the sun, get breakfast and then follow the big flock as they slowly led away from camp. To hear their everlasting "ba-as" to smell the ever-present wooliness, to live, move and have your being in an atmosphere of sheep — to walk when they walk, to stop when they feel disposed to rest, and to put in the slowly passing hours, to accompany them back to the neighborhood of camp, and, not until the flock has gone to bed for good, to feel a moment's freedom from their society, such is the life of the sheep herder. No wonder that as one sheep herder said he was ready to bless a wolf or two that broke in on the monotony of the day by trying to steal a sheep before his very eyes. The sheep herder is well armed and well fed. And very often on the summer ranges he can so manage the day's march with his flock as to bring in the blessed trout stream where the fish are rising to the summer flies. One man learned Spanish in his summer's herding. Another found a haven in the higher mathematics. Others used their pocket knives to carve ornaments and knickknacks. Books, magazines and letters are always brought out with the supply of beans and bacon, coffee and flour, sugar and tobacco.

# THE GREATEST OPPORTUNITY

\$

The investing public of Edmonton have had placed before them for  
a considerable time is that of purchasing a block of one of the finest  
west-end properties ever placed on the market at extremely reason-  
able prices and on very easy terms.

Frontage on  
Jasper Ave.

## NORTH JASPER PLACE

Frontage on  
Jasper Ave.

Is certainly one of the choicest  
suburban properties lying to the West of the City. Stands beautiful-  
ly high, commanding an open view of the city and has the advantage  
of frontage on the recognised, business section, namely,  
Jasper Avenue. At no distant date this property will be in great de-  
mand as a Choice West End Residential Location and with a street  
car service will prove one of the greatest investments offered this  
season.

Get in on the  
Ground Floor

## STOP AND CONSIDER

Get in on the  
Ground Floor

North Jasper place has been very carefully subdivided by the Domin-  
ion Land Surveyors into Blocks, each containing twenty full sized  
lots of 150 feet x 50 feet. The streets are 66 feet wide and the lanes  
16 feet. With the property sub-divided in this manner there will be  
no trouble in the future about allowances for streets, etc. The same  
cannot be said of many of the sub-divisions. Our advice is to buy a  
block, half block or quarter Block of this property, and buy it NOW,  
as there is nothing like getting in on the ground floor.

EASY  
TERMS

## REASONABLE PRICES

EASY  
TERMS

With the view to giving the small investor an equal opportunity to that generally offered to the man with greater means,  
we have decided to offer a limited number of quarter and half blocks at the wholesale price. This will be readily ap-

for 2,695.

Want House of Lords abolished  
The house of lords must be abol-  
ished. That is the latest cry among  
the labor people in England. In la-  
bor circles for several years there has  
been outspoken anger and much gnash-  
ing of teeth against the lords for  
turning down the alien bill. Now the  
Old People's League has been revived  
and already numbers some tens of  
thousands in all parts of the country.  
Many members of parliament on the  
Liberal side are openly helping the  
league and all the labor members and  
labor leaders are working hand and  
glove with it.

The one and only aim of the league  
is to secure the abolishment of the  
house of lords as at present consti-  
tuted.  
The petition put in circulation sys-  
tematically by the league is receiving  
thousands of signatures daily in Lon-  
don, Ireland and Scotland. The new  
league will undoubtedly make itself  
felt, and in the fall or certainly the  
spring of next year the movement  
promises to be ripe. Should there, by  
any chance, be a fall of government  
and a general election within the  
next year or two, it would not be sur-  
prising to find the abolition of the  
house of lords the battle cry of the  
labor party, and one which it might  
have a measure of success.

The petition now in universal cir-  
culation is in brief as follows:  
1. That there is in parliament a  
house of irresponsible lawmakers,  
known as peers.  
2. That the members of said house  
are mostly hereditary, succeeding  
each other by pedigree or mere ances-  
tral right.  
3. That such qualification for serious  
business of legislation renders Eng-  
lishmen ridiculous in the eyes of ra-  
tional persons all over the world.  
4. That the said anomalous house has  
for centuries oppressed the people of  
these islands by the framing of bad  
laws and the rejection or mutilation  
of such laws as have been of the clear-  
est possible utility.  
5. That, during the happy period of  
the commonwealth, your honorable body  
wisely passed an act abolishing heredi-  
tary legislators as "useless and dan-  
gerous" and that the nation in return  
reaped the greatest moral and materi-  
al advantages, at home and abroad.  
May it therefore, please your hono-  
rable house to revive such status of  
a solution permitting such peers as the  
people, in their wisdom, may duly elect  
to serve them in parliament to take  
their seats in your honorable house.

PUBLIC OPINION TELLS  
Louisville, Ky., June 28.—The Louis-  
ville Packing Co. plant, owned by the  
Cudahy Packing Co., was closed last  
night for an indefinite period because  
of newspaper criticism and adverse  
legislation.

METHODIST CONFERENCE  
Brandon, Man., June 28.—The As-  
siniboia conference, which covers  
Manitoba and Saskatchewan, con-  
vened here this morning. There is  
a large attendance of delegates  
from all parts of the two provinces,  
some of whom have travelled from  
the northern wilds to be present.  
Amongst the visitors are the Revs.  
Drs. Potts and Crew, of Toronto,  
both of whom have been visiting the  
Northwest for several weeks past.

RUSSIA'S CAZAR WAKING UP  
St. Petersburg, June 28.—The cam-  
paign which the opposition element  
in parliament are waging to com-  
pel Emperor Nicholas to dismiss the  
Goremykin cabinet and accept the  
principal of a responsible min-  
istry, promises soon to be crowned  
with success. But the emperor and  
court are being frightened into a  
surrender less by the violent at-  
tacks made upon the government in  
the lower house than by the alarm-  
ing spread of revolutionary disaf-  
fection among the troops. When the  
Problejensky regiment, "His Ma-  
jesty's Own," pronounced its  
sympathy with parliament and its  
agrarian programme in the big  
camp of guard regiments at Krasne  
Selo, less than a dozen miles from  
Peterhoff, the emperor's eyes were  
opened and the court began realiz-  
ing that there was only a step from  
that to a declaration of allegiance  
to the parliament as against the  
government.  
London, June 28.—Diplomatic  
circles here regard the seizure by  
Russia of Aland Islands, which con-  
trol the mouth of the Gulf of Both-  
nia as serious and likely to breed  
trouble.

—This evening will be soldiers' evening at the Thistle Theatre and the officers of the C.M.R. will be in attendance.

—The regular meeting of the Women's Hospital Aid has been postponed to the second Monday in July.

—The public school leaving examinations, which were being held at the High School here, were concluded today. In all there were about thirty-five candidates writing from Edmonton and vicinity.

—McPhee's big show company will arrive in the city on Monday to fulfill a week's engagement during the fair. They will perform each night in the Thistle rink.

—The inspection of Boys' Brigades by Col. McDonnell has been called off for this evening, but will take place on Monday afternoon at the fair grounds after the review of the C.M.R.

—At the organ recital by Dr. F. H. Torrington in McDougall church this evening, Mrs. Dilworth, of Toronto, will sing, "O Divine Redeemer," and "Sleep, Smile, Slumber," from Gounod; also the solo, "Hymn," by Alicia Needham.

—The Women's Hospital Aid are making what they hope will be the last great effort to clear the debt from the hospital. During the four days of the fair meals will be served in the hospital booth at the usual rate of 35c. The work has been divided among the ladies of various churches in the city as follows: 1st day, McDougall Methodist; 2nd day, All Saints' Anglican; 3rd day, First Presbyterian; 4th day, First Baptist, St. Paul's, Anglican, Grace Methodist, and Queen's Avenue Presbyterian. The ladies hope for a liberal patronage of the booth, and expect to be able to clear the hospital of debt.

## Presentation of Scholarships To Alberta Collegians

Musical Students Give Final Recital  
in McDougall Methodist Church  
Last Night

An attractive program was provided last evening in McDougall church by the students in piano, vocal and elocution departments of Alberta College.

Added interest was given to the occasion by the presentation of these scholarships in piano and vocal, according to the results of the examination held yesterday afternoon under the supervision of Dr. Torrington. Messrs. Howard Stutchbury, Jackson Hanby and Dr. A. A. Nicholls were the judges in the vocal examinations.

At the conclusion of the first part of the program Principal Riddell called upon Dr. Torrington to make the announcements and present the scholarships to those who won in the piano contest. Dr. Torrington made a neat and appropriate speech. He was pleased with Edmonton, and most of all with what Alberta College was doing in the cause of music, and in the most felicitous terms congratulated the young ladies who had shown sufficient training and skill to pass his arduous tests and win such distinction. He did not wish to draw students away from this city, but desired to see Edmonton develop as a famous musical centre in affiliation with the Toronto College of music. Dr. Torrington then read the names of the winners in piano:

Primary scholarship—Miss Edna Marie, scholarship, with Miss Mollie Wright, honorable mention.

Junior—Miss Hazel Anderson, scholarship; Miss Burnett and Miss Grant, honorable mention.

Intermediate—Miss Jean MacIsaac, scholarship; Miss Stretch, and Miss Hattick honorable mention.

Senior—Miss Dorothy Huestis, scholarship; Mr. P. E. Butchart, one of the donors, presented the scholarships in vocal.

First year—Miss Laura Tilton; Miss Hazel Anderson and Miss Minnie Hammond, honorable mention.

Second year—Miss Ethel Burnett, scholarship.

Miss Dorothy Huestis and Miss Lilian Watts were presented with their scholarships upon a few weeks ago and donated by the local graduates of Mt. Allison university for Education.

Principal Riddell, then asked Prof. Race to read the names of those to whom diplomas were awarded. These came to the front and received their diplomas.

In stenography—Miss Agnes Amundson; Miss Ferda Aufer, Miss Olive van Allen, Miss Alice Ferguson, Mr. Will J. Reid, Miss Bessie H. Nicholls, B. A.

In book-keeping—Mr. Edgar Richardson, Mr. J. Lester Clark, Russell Liggins, Fred J. Lawrence, Herb Lawrence, Miss Olive Van Allen, Mr. Will J. Reid, Mr. Bert Huff, Miss Maggie Bishop, Miss Anna Gray, Miss E. Lorraine Fleming, Miss P. Reid, Miss A. Hager.

The following students completed qualifications for diplomas in all but one subject—Miss A. E. Symon, for shorthand diploma; Mr. Herb Lawrence, Mr. Lloyd Puffer, Mr. H. Walrod and several others have nearly completed the course for the diploma, among them being Miss Kate Richardson, Miss J. Rowland, Miss Clara M. Thirak, Mr. G. McKenzie, Mr. August Reinhold, Mr. J. A. McRimmon, Miss Hammond, Mr. Solberg, Miss Jean Mitchell.

The following have qualified for certificates in stenography:

At one hundred words per minute—Miss Lulu M. Ashwell, Miss Walworth, Miss V. Butchart, Mr. A. H. Hattick, Miss Burkholder, Miss Helena Carson, Miss Florence Hall, Miss Ella Meredith.

At 95 per minute—Mr. Pierre Gouveau.

At 80—Robt. H. Montgomery, Miss B. M. Battick, Miss Lulu Lee.

At 75—Miss Minnie Dundas.

At 60—Ruth McElheny, and several others who have taken partial courses and then gone.

In addressing the students who won diplomas the principal said that out of one hundred and sixty-two students only nineteen received diplomas, indicating that the college graduates those who are capable and efficient to take business positions.

Piano, "Shepherd's all and maidens fair," Nevin; Miss Evelyn Heathcote.

Vocal, "Dearest Than All," Slaughter; Miss Mae Dore.

Violin (a) "Trauerlied," Schumann; (b) "Pizzicati," Leo Delibes; Miss May Stretch.

Reading—(a) "Out to Old Aunt Mary's," J. W. Riley; (b) "Shiridan's Ride," T. B. Reid—Miss Dorothy Huestis.

Piano, "Valse Aragonaise," Thome; Miss P. Kemp.

Vocal, "Cradle Song," Kate Vannah; Miss Hazel Anderson.

Piano, "Polonaise in A Major," Chopin; Miss May Stretch.

Vocal, "Our Jack," Trotter; Mr. John Gilson.

Presentation of prizes.

Two pianos, "Post and Pleasant Overture," S.S. Supp; Misses Huestis, Kemp, Stretch and Anderson.

Reading, "High Tide," Jean Inge; Miss Lilian Watts.

Piano, "Norwegian Bridal Procession," Greig; Miss Bertha Battick.

Vocal, "Polonaise in the Lord," (St. Paul), Mendelssohn; Miss Nellie Burnett.

Piano, "Mazurka," Godard; Miss Jean MacIsaac.

Reading, "Mr. Pickwick's Adventure," Dickens; Mr. C. M. Tait.

Vocal, "May Morning," Denza; Miss Jessie Potter.

Piano, "Valse Caprice," Rubinstein; Miss Dorothy Huestis.

he above program rendered by the students called forth generous applause from the audience, reflected credit upon them and their instructors. Special features were violin numbers by Miss Stretch; piano numbers by Miss MacIsaac and Miss Kemp, and the singing of Miss Jessie Potter, who sang with fine enunciation and exquisite tone. Miss Potter was the recipient of beautiful bouquets of flowers at the conclusion of her solo. Mr. John Gilson in "Our Jack," showed a good voice, and reserve power which he apparently did not deem the occasion important enough to draw upon.

## Creamery Cold Storage

Canadian Butter Competitors in the  
British Market

(By J. A. Rudlick, Canadian Dairy Commissioner.)

Butter is an unstable product. It is at its best when freshly made. Strictly speaking, deterioration begins at once, and it will become noticeable sooner or later according to the conditions under which the butter is kept. The most important condition in this respect is that of temperature, because no other condition has anything like the same influence in the preservation of butter. The preservation of butter means the checking to a greater or less extent of the processes of fermentation that affect the flavour, and which are inevitable in all butter. Temperatures below zero have been employed for the keeping of butter, but it has never been found that even such extreme low temperatures will preserve the flavour indefinitely, although it has been proved beyond any doubt that the lower the temperature the longer it will be preserved, other things being equal. Fortunately, there is a certain period in the life of all good butter, during which it may be considered to be at its best. Assuming that the butter has been well made, the duration of this period depends almost entirely on the temperature at which the butter is kept. All other considerations fade into insignificance compared with it. It follows then, that the length of time that may elapse between the manufacture of the butter and the date of its consumption, should be the principal guide in determining the temperature that must be employed to secure the best results.

Canadian creamery butter, which is exported to Great Britain, reaches the consumer in not less than four to six weeks after it is made. In many cases it is much longer. Even if we had no rivals on that market, it would be good business policy for us to deliver our butter in the best possible condition and thus encourage consumption. But we have rivalry and competition of the very keenest kind, and it behooves us to study carefully the advantages which our competitors enjoy, and the means that we must employ to place our butter at least on even terms with theirs. The transportation companies and the dealers in whose cold storage warehouses the goods are held, are responsible for a considerable portion of the time, but we do not propose to deal with that phase of the question just now, more particularly as the creamery end is admittedly the weakest part of the whole chain, as far as temperature is concerned.

As for our rivals, Denmark and Ireland far exceed all others in point of quantity. Excepting Norway, which is really in a class by itself, Denmark ranks superior also in the matter of quality. Nearness to market and facilities of transport enable the Irish and Danish buttermakers to deliver their product to consumers in England without its suffering serious deterioration under any circumstances; but even with them, the importance of low temperature is not overlooked. Swedish and Dutch butter belongs to the same category as Danish and Irish, although the quantity is smaller. Siberian butter suffers in storage and transportation, but it is admittedly inferior and therefore offers a standard which is not, or should not be, high enough for Canadians. Although not coming into direct competition, on account of the opposite seasons in the southern hemisphere, we have to consider the Australian, New Zealand and Argentine butters. Notwithstanding the great distances which the butter from these countries must travel, it is a fact, that much of it, especially that from New Zealand, arrives in England showing less deterioration than the butter from any other country, simply because extra precautions are taken to preserve it. Nearly all the creameries in New Zealand have mechanical refrigeration, which permits of temperatures of 10 to 20 degrees being maintained in the creamery cold storages. The butter is shipped every few days to warehouses, where the temperature is maintained at 10 degrees, until it is loaded on the steamer for shipment to London. Thus we find that some of our rivals are so near to the market as to obviate the necessity of elaborate cold storage arrangements, while others, sending their butter from a great distance, have adopted such extreme measures for its protection that they are able to place it on the market in fully as good condition as much of that which comes from sources of supply only a short distance away. Our position is a sort of middle ground. We are much too far from the consumer, both in the matter of time and distance, to ignore the advantage of cold storage, and yet we do not require to go quite so far as our Australasian

competitors do. Buttermakers and creamery managers sometimes argue, that as they can dispose of the butter to the exporters before the deterioration amounts to a difference in price, it does not pay them to provide efficient cold storage at the creameries. Even if this were true, which it is not, it would be a very short-sighted policy, and the person who holds such views, and acts accordingly, is not doing his best in the interests of the farmers who produce the milk. He overlooks the fact that it is the condition of the butter when it reaches the table of the consumer that determines the ultimate price. Every creamery should have a cold storage in which the temperature may be maintained under 35 degrees Fahrenheit. Our records show that very few reach this standard of efficiency. Even at a temperature of 35 degrees or under, the butter should be shipped as quickly as possible to where it will be cared for at a much lower temperature.

The cost of building a good creamery cold storage, and the lack of accurate information on the subject of insulation, have militated to some extent against the necessary improvement.

It was with a view of providing some reliable information of this kind, that a series of experiments was recently planned by the dairy commissioner's branch for the purpose of determining the relative efficiency of various materials, and combinations of materials, for the insulation of ice chambers and cold storage compartments. The experiments were not intended to be exhaustive, but simply to cover the use of such materials and plans as are likely to be used in the construction of creamery cold storages in this country. It is not proposed at this time to set forth in detail, the data that have been collected as a result of this work, but simply to make a few recommendations based on the conclusions drawn from the experiments, coupled with the experience gained in watching the results secured at numerous creamery cold storages of varied construction, and the ice chambers in connection with the cool cheese curing rooms, that were designed by the author, and which have been operated by the department of agriculture for the last four seasons. Before going any further, it will be as well to describe briefly some of the different systems of creamery cold storage, that are applicable to Canadian conditions.

Mechanical refrigeration is indispensable where low temperatures are required, as in a modern cold storage warehouse, and it may be employed with advantage in creameries having a large output of butter. For small or medium sized creameries, however, the first cost of installation, and the annual expense of operation, put the mechanical system out of the question. For that reason a great majority of the creameries in Canada will continue to use ice as a refrigerant. The two systems of ice storages most generally used at Canadian creameries are known as the "air circulation system" and the "cylinder system."
